Dear Foundation Friends and Family,

One word encapsulates the Foundation’s impact on our profession in 2015—WOW! A big thank you to all who supported the Foundation. Together, you helped us raise $3.5 million towards our mission. Let’s take a glimpse at a few of the lives that were changed thanks to your generous support.

Scholarships

The Academy Foundation is the largest provider of dietetic scholarships providing $1.5M over the past 3 years to deserving students at all levels of study.

“The Academy Foundation has continually supported me throughout my educational career in dietetics and nutrition. I have been able to focus a majority of my efforts on studying and volunteering to learn more about hopefully further the profession.”

Ivana Petrovic, RDN, Vivian M. Roberts Memorial Scholarship Recipient

Learn about the Foundation scholarship program through our recent video. You will learn about all the lives that we have changed thanks to donations and not membership dues.

Awards

Through our Awards program, Academy members have a chance to make a difference and advance the dietetics profession providing $455,000 over the past 3 years.

“The Abbott Nutrition Alliance Award provides me with a small but important stepping stone. This stepping stone will serve to publicly mark the importance of recognizing and treating malnourished patients within the hospital in which I work. Thank you for encouraging my work and helping to bring attention to this issue! It is my hope that not only I, but the patients I see on a daily basis will benefit.”

Nicole Erickson, MSc, RD, 2015 Abbott Nutrition Alliance Award Recipient
Research
The Academy Foundation values research conducted by RDNs. Our research grants are making an impact towards improving treatment of diseases.

"I am incredibly honored to receive this grant. As a registered dietitian and researcher in the early stages of my career, I am humbled by the Foundation’s investment in my research, professional development and my future career goals. This grant will help me to complete an important translational component of my doctoral dissertation, where the objective is to identify predictors of improved fertility after weight loss in overweight women with polycystic ovary syndrome (PCOS). I am grateful to Dr. Jean Hankin and to the Academy of Nutrition and Dietetics Foundation for this important opportunity."

Brittany Jarrett, 2015 Jean Hankin Nutritional Epidemiology Research Grant Recipient

Kids Eat Right and Future of Food
We’re not just working for today, we’re also working for the future through our Kids Eat Right and Future of Food initiatives ($2.6M + over the past three years).

Kids Eat Right helps bring the expertise of RDNs into schools and community centers through programs like: RD Parent Empowerment Program and Champions for Healthy Kids. All programs have involvement by an RDN or nutrition and dietetics technician, registered and member of the Academy.

Through the Future of Food program we are working to raise awareness of food insecurity and promote access to healthy food and quality nutrition education in food banks. Valuable webinars, resources and toolkits (sign-in needed) are available to members to help address the hunger issue in communities.

On behalf of the thousands of students, nutrition and dietetics practitioners, and children who benefit from the Academy Foundation’s initiatives, thank you for your generosity!

Sincerely,

Jean Ragalie-Carr, R.D.N.
